***Note: If you buy a combination of big and small cans, for example, 3 large cans of Similac Pro Total Comfort (29.8 oz.) and 2 small cans of Similac Total Comfort (12.6 oz.); you may end up with a balance on your card that looks strange (i.e., 0.25 or 0.75). A remaining balance of less than 1 can does NOT mean you are getting less formula. If you have anything less than 1 can left on your card, you have reached your monthly benefit. If you have any questions when purchasing different can sizes, please contact your local WIC clinic.**
